Vigneshwar Kandhaiya

Lead Customer Reliability Engineer @ Informatica | Lead Customer Reliability Engineer | Passionate About Machine Learning, MLOps, & Data Science

Chennai, Tamil Nadu, India

Summary

As the Lead Customer Reliability Engineer at Informatica, my role is to ensure optimal system performance and reliability, leveraging skills in DevOps and database administration honed over several years of experience in the tech industry. With a solid educational foundation from SASTRA University and specialized certifications in Machine Learning from Coursera, including regression, classification, and advanced learning algorithms, my approach combines technical acumen with a strategic understanding of data-driven technologies. My journey commenced as an Associate Database Administrator at Fidelity Investments, progressed through senior DevOps roles, and now, at Informatica, I lead efforts to enhance customer satisfaction through reliable and efficient engineering solutions.
